

I am very much looking forward to seeing you and getting back to normal as much as possible. To ensure your safety and mine, in response to COVID-19, the following precautions and guidelines will need to be followed to safe-guard you against contamination or infection.

### **Changes to my workshops**

- I will only be offering short workshops at this time (No more than 3.5 hours). I will continue to monitor the situation before bringing back full day workshops.
- My workshops are for one or two people. If you are a two, then you will need to be in a support bubble. Inside workstations are 1 metre + apart.
- Access to my workshop will be via my garage. Access to my toilet/handwashing facilities will be via my front door opposed to walking through the house.

### **How I will create a safe environment**

- We will be wearing masks for the duration of the workshop.
- All tools will be cleaned before and after each workshop. Each customer will have their own tools, but in the case where this is not possible, tools will be continually cleaned throughout the session.
- I will provide hand sanitisers and anti-bacterial wipes.
- My workshop will be cleaned after each customer.
- I will inform you of workshop postponements if I or any of my household are suffering covid-19 symptoms.

### **What to bring**

- A mask and hand sanitiser.
- Your own refreshments.

### **Covid-19 Symptoms**

If you or anyone in your household are suffering from Covid-19 symptoms, please let me know so we can arrange a new date after you or your household have been asymptomatic for at least 14 days.

My workshops are led by government guidelines on working safely so if there is another lockdown, my workshops will have to stop temporarily.
